

## ALL AMERICAN GIRL

There's a girl, In my world, She's an all-American girl  
Big green eyes, Electric smile, Don't know why she rocks my world

Why do I wanna be with her, Its obscene and its absurd  
Why would I wanna be with her, With that all-American girl

I need a lifeline, Help me please, She's got me hooked like a disease  
Can't think straight, My body aches for that all-American girl

Why do I wanna be with her, Its obscene and its absurd  
Why would I wanna be with her, With that all-American girl

Her rhinestone jeans are splitting at the seams  
In her all-American style  
Her tombstone teeth look good enough to eat  
In her all-American smile

Kind of geek, Kind of sweet, in the bedroom she's a freak  
Why don't I admit defeat, that girl she's got me on my knees

Why do I wanna be with her, Its obscene and its absurd  
Why would I wanna be with her, With that all-American girl  
Why do I wanna be with her, Its obscene and its absurd  
Why would I wanna be with her, With that all-American girl
